DISCOVER CREATIVE OPPORTUNITIES

Explore Digi-Pitches

Find a project that fits your skills, review its details, and apply for an available Work Card.

The Hub > Explore Digi-Pitches in the sidebar opens the Digi-Pitches grid. Only Digi-Pitches made live by their Owner appear in this listing.

1 Filter and sort the listing

Select the **funnel-shaped filter icon** at the top right of the listing. The same menu contains **Sort By** choices and all three filter types.

FILTER MENU · ILLUSTRATIVE VIEW

Sort By
Title (A-Z)
Title (Z-A)
Create Date (Newest) · default
Create Date (Oldest)

Filter by Digi-Pitch Stage
Filter by Category
Filter by Keyword

Clear Filters

Sort changes the order immediately; it does not change which pitches match your filters.

Choose and apply a filter

1. Choose a filter type from the menu.
2. Check one or more choices in the selection window.
3. Select **Apply Filters** to update the listing.

Select Stage
☐ Concept/Idea
☑ Pre-Production
☑ Development

Select All **Apply Filters**

Illustration shows part of the selection list.

Filter	Quick reference
Digi-Pitch Stage	Concept/Idea, Pre-Production, Development, Production, or Distribution.
Category	Select project types, such as Narrative Content, Audio & Music, 3D & Asset Production, or Interactive & Digital Experiences.
Keyword	Match the pitch's "Seeking" skills: 3D Animators, 3D Modelers, Editors, Producers, Sound Designers, Unity Developers, or VFX Artists.

How filters combine: A pitch can match any selected choice within a filter type, but must match each filter type you use. For example, Category = Narrative Content plus Keyword = Editors finds narrative pitches seeking editors.

Reset or broaden: Remove an active filter chip with ×. **Clear Filters** removes all filters and resets sorting to **Create Date (Newest)**. **Select All / Deselect All** changes the choices in a selection window; select Apply Filters afterward. No selected choices means that filter type does not restrict results.

2 View a Digi-Pitch

Browse the project cards. Each shows the **title**, **category**, **Seeking** skills, and **stage**. Select a card or **View Details** to open the Digi-Pitch.

Browse the listing → View Details → Available Work Cards

Where to look	What to review
Project overview	Read the description and project details; check the Owner and estimated release information.
Available Work Cards	Compare the opportunities, responsibilities, priorities, and displayed rates before applying.
Work Card detail	Select the body of a Work Card to inspect its details. Use the back arrow to return to the Digi-Pitch and apply from the card's Apply button.

More results: Select **VIEW MORE DIGI-PITCHES** at the bottom when available. If no pitches match, remove filter chips or use Clear Filters. Use the Digi-Pitch page's back arrow to return to the listing.

3 Apply for a Work Card

Open a Digi-Pitch and scroll to **Available Work Cards**. Review the work before registering your interest.

AVAILABLE WORK CARD · EXAMPLE

WC-EXAMPLE Priority

Seeking: Sound Designer

Create sound effects for an animated short.

KEY RESPONSIBILITIES

Design, edit, and deliver the required audio.

$500 Fixed
Taking applications

Apply

Illustration only. Actual roles, responsibilities, and rates vary by Work Card.

Application checklist

1. Check **Seeking** and the work description against your skills.
2. Read **Key Responsibilities** and the displayed **rate / rate type**. Clarify any "To be defined" details before committing to the work.
3. Select **Apply** on the chosen card. There is no additional application form in this flow.
4. Confirm that the button changes to **Applied**. It is disabled to prevent a duplicate application.

Apply → Applied

Find your applications

Dashboard > Applied Work Cards

Review the cards you have applied to and their Digi-Pitch names. A card may show **Application pending**; it can open from the Dashboard only when it is linked to an operational Work Card.

> **Applying is not an assignment:** Applied records your interest; it does not mean you have been selected, accepted an offer, or can begin work. **My Work Cards** is a separate list of cards assigned to you.
